ALEXANDRIA:

FRIDAY MORNING, OCTOBER 29, 1858

The Atlantic telegraph has again been attracting attention in London, though in a new phase. Lieutenant Higginson, of the royal navy, applied to Alderman Salomans for a summons to the company to answer the charge of swindling him out of some \$5,000 he had no authority to issue process in the matter, and would not let him go on in reading his charges against the Company.

The Union declares that "Governor Wise evinces an earnestness bordering on distempered zeal in behalf of his western idol." Judge Douglas. So that it will be seen the Governor's late letter is not relished by those "in authority."

From a letter published in the newspapers from Commodore Charles Stewart, in relation to the Paraguay expedition, it would seem that that venerable officer is not very well pleased with the way things have been managed in connection with the expedition.

The most contradictory statements are made relative to the Fair in Richmondsome representing it to be a comparative failure-others saying it is highly successful, and fully equalling, if not surpassing, public expectation.

Many of our readers may not be aware of the existence of such a prince as Charles III. of Monaco. But there is a European Prince bearing that title, and his kingdom is situated on a rocky promontory in the Mediterranean, between Nice and Genoa. Formerly the principality of Monaco contained 53 square miles, and a population numbering less than 7,000 souls; but recent revolutions have deprived the reigning Prince of a portion of his dominions, and his rule is now strictly confined to the town of Monaco, with a population of about twelve hundred persons-Menton, Requebrance, and the surrounding parishes baving, in a rebellious manner, established their independence .--Nevertheless, Chares III. still possesses all the privileges of a monarch. He can create nobles, dispense decorations and honors, and what is more important, coin meney!

The New York Express says that the work on the Cromwell s:eamers Atlanta and Memphis, chartered for the Paraguay expedition, has been suspended, as the order for their rejection on account of total unfitness for this service, is hourly expected from the Navy Department. Two of the new light draught steam sloops of war now building are said to be selected as substitutes for the two rejected. Two lake steamers-the America and Ontario-have been chartered for the expedition, a: \$4,000 per month.

The Pittsburg Commercial Journal says: Our unfortunate bondholders in the East are making more comfort out of the result of the late election in this county, than the facts warrant. Unquestionably all those who think all trouble is now over on this vexed local question, and that we shall shortly commence to pay interest on our bonds without reference to the decision of the courts, are destined to serious disappointment. All the politcal organizations in this county are pledged to legal resistance until the courts of last resort shall decide against them."

Another sad affair has occurred near Jeruinvested in the stock. There was quite a salem. An English lady, spending the sumscene in Court. The Alderman told the Lieut. mer in tents with the family of Mr. Finn, the English consul started to go alone to Jerusalem. Nothing was heard of her till a few days after, when her body was found by the roadside, bearing marks of vilest abuse and torn by wild beasts. The matter is being examined into. All the sheikhs (or petty rulers) of the vicinity have been imprisoned. Some natives who have been examined say that they saw two failchee (the lowest
